

INTRODUCING ...

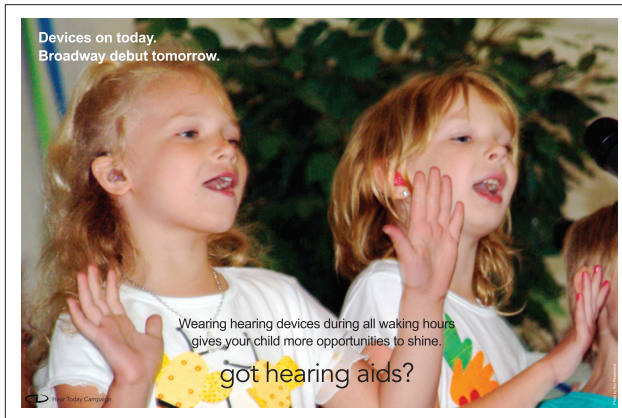

Hear Today Campaign Posters

Audiologists and teachers of the deaf know that listening and spoken language skills are developed every moment of the day. CID Hear Today Campaign hallway posters ask parents to imagine their child's future success linked to the constant daily use of hearing devices.

These whimsical full-color posters were designed by CID staff to reinforce teachers' efforts to make parents aware of how important it is for children to wear their hearing devices during all waking hours.

CID Hear Today Campaign posters feature children wearing hearing aids.

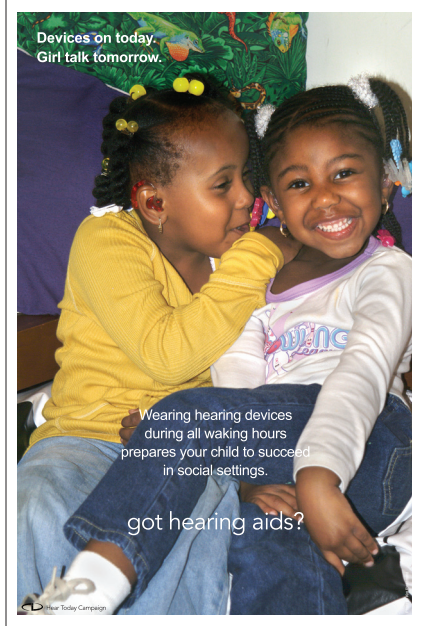

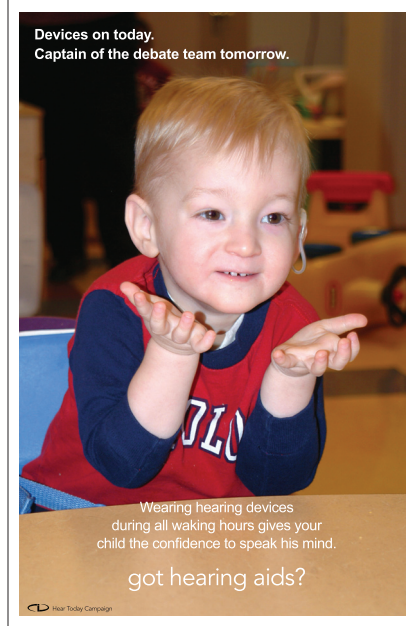

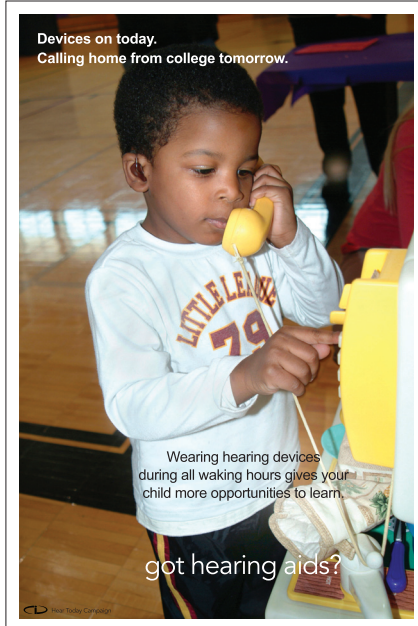

\$20

set of 5 12x18" posters
